

COVENTRY

MUNICIPAL FIRE DEPARTMENT

- *The budget was calculated at the highest level to provide a “worst case scenario”*
 - *Assumes all employees take a family plan*
 - *Assumes highest steps for salary calculations*
- *If combined, there will be a centralized command structure, lessening the current confusion and animosity between district personnel*
- *The combination of districts into a municipal department will eliminate approximately \$600,000 of duplicative services*
- *If districts combine, there will be a higher level of care across the town on a consistent basis due to cross manning*
- *Largest single cost increase is due to adding 6 FTEs from WCFD to the Municipal Employee Retirement System*
- *If districts combine, residents will pay all taxes under one bill*
- *Municipal model allows for maximum flexibility for town coverage*
- *Elimination of residential responsibility of rescue bills after insurance billing “balance billing” for ambulance services in Western Coventry*
- *Since this analysis, three districts have increased their budgets. The financial analysis was completed before those increases which will lessen the overall increase if districts combine*
- *A single municipal department is projected to have higher retainage than the district model*

COVENTRY

MUNICIPAL FIRE DEPARTMENT

At a Glance

STAFFING

55 members

Opportunities for growth in the most vulnerable areas of Town due to more grant opportunities for a municipal department.

SCHEDULE

24/7/365

ALS/FF Level

No uneven service levels

No schedule gaps

SERVICE AREA

All of Coventry served by one department, enabling resources to be shifted between all stations as required by taxpayer needs.

For Example, shifting the current 3 personnel to 2 on an apparatus to allow for Rescue 7 to be brought into service.

STATIONS & APPARATUS UNITED FROM DISTRICTS

No more Balance Billing

FINANCIAL SNAPSHOT

Budget based on FY 2026 final:	\$13,038,852
Total Fund Balance:	\$4,521,293
Total Loan Liabilities from Districts:	\$3,292,945

Additional funding will be needed to add pensions for 6 WCFD personnel currently without. MERS study required for final cost

TAX INFORMATION

Fire taxes are combined into Town tax bill (one bill now)
All taxes are even, based off home value not location

Actual Tax Rate Increase for FY 2026: +1.57%*

Causes a 14.26%* tax increase on paper due to the already paid fire taxes being absorbed into the Town taxes
