INDEPENDENT AUDITOR'S REPORT

The Honorable President and
Members of the Town Council
Town of Coventry
Coventry, Rhode Island

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund, and the aggregate remaining fund information of the Town of Coventry, Rhode Island (Town) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of the Town of Coventry, Rhode Island as of June 30, 2019, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4-13 and 90-96 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Coventry, Rhode Island's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, other supplementary information, schedules, the Annual Supplemental Transparency Report (MTP2) and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, other supplementary information, the Annual Supplementary Transparency Report (MTP2) and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, other supplementary information, the Annual Supplementary Transparency Report, MTP2 and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 18, 2020, on our consideration of the Town of Coventry, Rhode Island's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Coventry, Rhode Island's internal control over financial reporting and compliance.

Management's Discussion and Analysis

TOWN OF COVENTRY, RHODE ISLAND
Management's Discussion and Analysis
For the Year Ended June 30, 2019
(Un-audited)

Management of the Town of Coventry provides this Management's Discussion and Analysis of the Town of Coventry's Annual Financial Report for the readers of the Town's financial statements. This narrative overview and analysis of the financial statements of the Town of Coventry is for the fiscal year ended June 30, 2019. We encourage readers to consider this information in conjunction with the Town's financial statements that follow.

Financial Highlights

- ❖ The net position of the Town's primary government increased by \$1,478,541 as a result of current year's operations. On a government-wide basis the liabilities and deferred inflows of resources of the Town of Coventry exceeded its assets and deferred outflows of resources at the close of the most recent fiscal year by \$129,410,987. The net position of the Town's business activities decreased by \$221,507 or 2.0%, and the net position of Governmental Activities increased by \$1,700,048 or 1.2% in the current period.
- ❖ The Town's Government-wide (governmental and business activities) operating expenses were \$116,700,679 a 1.6% increase from the prior year, while revenues collected were \$118,179,220 a 3.0% increase from the prior year.
- ❖ As of the close of the fiscal year, the Town's governmental funds reported combined ending fund balances of \$23,377,827. Over 38.8% of this amount, \$9,070,921 is unassigned and available for use within the Town's specific designations and fiscal policies or subject to outside restrictions.
- ❖ At the end of the current fiscal year, the general fund unassigned fund balance was \$9,752,638 or 11% of the total general fund expenditures for the fiscal year. The current fiscal year's revenues and transfers in exceeded expenditures and transfers out by \$2,226,185. On a budgetary basis revenue exceeded expenditures and transfers by \$1,856,158.
- ❖ On March 6, 2019 the Town issued new bonded debt of \$7,050,000 with an interest coupon rate 2.5% - 4.00%. to repair upper pond dam and to build a new police station complex. In August of 2018 the town also refunded sewer fund debt from 2013 replacing that debt service with a new refunding bond with a coupon rate of 4.19% and a present value savings of \$253,881.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Town's basic financial statements. These basic financial statements consist of three components:

- Government – wide financial statements
- Fund financial statements
- Notes to financial statements

In addition to the basic financial statements, this report also contains other supplementary information.

The Town's basic financial statements and other supplementary financial information provide information about all the Town's activities. They provide both a short-term and a long-term view of the Town's financial health as well as information about activities for which the Town acts solely as a trustee for the benefit of those outside of the Town's government.

Government-wide financial statements - are designed to provide readers with a broad overview of the Town's finances in a manner, which is similar to a private-sector business. They are presented on the accrual basis of accounting where revenues and expenditures are recognized on the date, they occurred rather than on the date they were collected or paid.

The *Statement of Net Position* presents information on all of the Town's assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference between these items reported as net position. Over time, increases or decreases in the Town's net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The *Statement of Activities* presents information which shows how the Town's net position changed during the fiscal year. All changes in the Town's net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods. Examples are uncollected taxes and earned but unused compensated absences.

Both of the government-wide financial statements distinguish functions of the Town, which are supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The Town's governmental activities include general government, public safety, education, public works, community and economic development services, health and human services, cultural and recreational services and interest on long-term debt. The Town's business activities include the Sewer Fund.

The government wide financial statements are reported on pages 14 through 15.

Fund financial statements – A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the Town can be divided into three categories governmental funds, proprietary funds and fiduciary funds.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town maintains various governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund and School Special Revenue Unrestricted Fund which are considered to be major funds. Data from the other funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining supplementary information statements elsewhere in this report.

Proprietary Funds - The Town's proprietary fund is used to report the same functions presented as business-type activities in the government-wide financial statements. The Town has one enterprise fund and one internal service fund. The Coventry Sewer Enterprise Fund, which accounts for the Town's sewer system and the Self Insurance Reserve Fund which is an internal service fund. This fund accounts for the School Departments health care self-insurance activity with WB Community Health.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Coventry Sewer Fund since it is a major fund of the Town. The Internal Service Fund is folded into the Governmental Activities of the Government-Wide Financial Statements when the fund financial statements are consolidated.

The basic proprietary fund financial statements are presented on pages 19 through 21.

Management's Discussion and Analysis
For the Year Ended June 30, 2019
(Un-audited)

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because resources of those funds are *not* available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 22 and 23.

Notes to Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are presented on pages 24 through 89.

Other Information - In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information pertinent to the Town's operations. Required Supplementary information is presented on pages 90 through 106.

The combining statements referred to earlier in connection with non-major governmental funds, are presented on pages 107 through 169.

Government-wide Financial Analysis

Analysis of the Town of Coventry's Net Position

As noted earlier, the Town's net position may serve over time as a useful indicator of a government's financial position and an important determinant of its ability to finance services in the future. The Town of Coventry, governmental activities liabilities and deferred inflows of resources exceeded assets and deferred outflow of resources by \$140,246,824 as of June 30, 2019. The cumulative deficit in the governmental activities net position decreased by \$1,700,048 from current year activity.

Listed on the following page is a comparison of the current and prior fiscal years.

The largest portion of the Town's Governmental net position, \$9,431,150 consists of its investments in capital assets such as land, buildings and improvements, motor vehicles, furniture and equipment and infrastructure, less any debt used to acquire these assets, which is still outstanding. The Town uses these capital assets to provide services to its citizens. Consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves are unlikely to be used to liquidate these liabilities.

The remaining balance of the Town's unrestricted net position may be used to meet the government's ongoing obligations to its citizens and creditors. The unrestricted net position for governmental activities reported a \$151,206,473 deficit while the business-type activities reported a \$131,152 surplus position.

As of June 30, 2019, the Town of Coventry reports positive balances in the net investment in capital assets category and restricted items.

to the Statement of Activities
For the Year Ended June 30, 2019

Net change in fund balances-total governmental funds \$ 2,769,075

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds reported capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Also, other various capital activity is not recognized in the governmental funds but is recognized in the Statement of Activities.

Capital Outlays	7,731,683
Depreciation expense	<u>(3,801,508)</u>
Change to Net Position	<u>3,930,175</u>

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. (74,008)

Interest expenses in the statement of activities includes accrued interest calculated for bonds payable (48,493)

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas bond premiums are deferred and amortized in the statement of activities. These amounts is the net effect of these differences in the treatment of long-term debt and related items.

Bond principal payments	3,741,000
Issuance of debt	(7,050,000)
Bond premium amortization	78,865
Premium on issuance of debt	(249,424)
Prepaid bond insurance	(2,121)

Changes in the Town's Net Pension Assets, Deferred Outflows of Resources related to pension plans or Net Pension Liability and Deferred Inflows of Resources related to pension plans result in an increase or decrease to the pension expense reported in the Statement of Activities. The effect of these adjustments resulted in a decrease in pension expense reported in the Statement of Activities. (130,603)

The Internal Service Fund is used by management to charge the costs of Employee Health claims. The net revenues (expenses) of the Internal Service Fund is reported with Governmental Activities in the Government-Wide financial statements. (360,957)

Other certain accrued expenditures that do not use current financial resources are not reported in the fund financial statements. However, in the statement of activities these accrued expenses are recognized and charged to current activities. (903,461)

Change in net position of governmental activities. \$ 1,700,048

Notes to Financial Statements

TOWN OF COVENTRY, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Town of Coventry, Rhode Island have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following notes to the financial statements are an integral part of the Town's financial statements.

Reporting Entity

The Town of Coventry was incorporated in 1741. The Town is governed largely under the 1973 Coventry Home Rule Charter. In some matters, including the issuance of short and long-term debt, the general laws of the State of Rhode Island govern the Town. The Town operates under a Council/Manager form of government and provides the following services as authorized by its charter: Public Safety (police, fire alarm, animal control and inspections) Public Works (sanitation, roads and bridges, engineering and building maintenance), Parks and Recreation, Education, Social Services, and General Administrative Services.

Members of the Town Council are elected by district for a term of four years. The Town Council is granted all powers to enact, amend or repeal ordinances relating to the Town's property, affairs and government, including the power to create offices, departments or agencies of the Town, preserving the public peace, health and safety, establishing personnel policies, giving effect to any vote of the Financial Town Meeting authorizing the issuance of bonds and providing for an annual audit of the Town's accounts.

This report includes all of the funds and account groups of the Town of Coventry. The reporting entity for the town consists of (a) the primary government, (b) organizations for which the primary government is financially accountable and (c) other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable.

In evaluating the inclusion of other separate and distinct legal entities as component units within its financial reporting entity, the Town applied the criteria prescribed by GASB Statement No. 14, as amended by GASB Statement No. 39, "Determining Whether Certain Organizations are Component Units." A component unit is a legally separate organization for which the elected officials of the primary government are financially accountable or for which the nature and significance of its relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Through the application of GASB Statement Nos. 14 and 39 criteria, no separate entities have been determined to be component units of the Town. Component units are legally separate entities that meet any one of the following three tests:

TOWN OF COVENTRY, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Test 1- the primary government appoints the voting majority of the board of the potential Component unit and

- * Is able to impose its will on the potential component unit and/or
- * Is in a relationship of financial benefit or burden with the potential component unit;

Test 2- the potential component unit is fiscally dependent upon the primary government; or

Test 3 - the financial statements would be misleading if data from the potential component unit was not included.

The following entity was considered for classification as component units for fiscal year 2019:

- * Coventry School System

Although the Coventry School System met certain criteria of the tests listed above, this entity is not deemed to have separate legal status apart from the Town. As a result, the financial data of this entity has been included as Special Revenue Fund within the Town's financial statements and is not considered a component unit of the Town.

BASIS OF PRESENTATION

The accounts of the Town are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows, liabilities, deferred inflows, fund equity, net position, revenues, and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds to demonstrate legal compliance and to aid management by segregating transactions related to specific Town functions or activities.

Recently Issued Accounting Standards

The Town implemented the following accounting pronouncements for the year ended June 30, 2019:

- GASB Statement No. 83 – Certain Asset Retirement Obligations – effective for the Town's fiscal year ending June 30, 2019.
- GASB Statement No. 85 – Omnibus 2017 – effective for the Town's fiscal year ending June 30, 2019.
- GASB Statement No. 88 – Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements – effective for the Town's fiscal year ending June 30, 2019.

TOWN OF COVENTRY, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Town will adopt the following new accounting pronouncements in future years:

- GASB Statement No. 84 – Fiduciary Activities – effective for the Town’s fiscal year ending June 30, 2020.
- GASB Statement No. 87 – Leases – effective for the Town’s fiscal year ending June 30, 2021.
- GASB Statement No. 89 – Accounting for Interest Cost Incurred before the End of a Construction Period – effective for the Town’s fiscal year ending June 30, 2021.

Government-Wide Financial Statements

The statement of Net Position and the statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for *fiduciary funds* (the activity of these funds is reported in the statements of fiduciary Net Position and changes in fiduciary Net Position). The government-wide financial statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds, each of which, is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, liabilities, fund equity, revenues and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Town or meets the following criteria:

- (a) Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total (assets, liabilities, and so forth) for all funds of that category or type (that is, total governmental or total enterprise funds), and
- (b) Total assets, liabilities, revenues or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

In addition to funds that meet the major fund criteria, any other governmental or enterprise fund that the government’s officials believe is particularly important to financial statement users (for example, because of public interest or consistency) may be reported as a major fund.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

GOVERNMENTAL FUND TYPES

These are the funds through which most governmental functions are typically financed. The funds included in this category are as follows:

General Fund - is used to account for resources devoted to financing the general services that the Town performs for its citizens. General tax revenues and other sources of revenues used to finance the fundamental operations of the Town are included in this fund. The fund is charged with all costs of operating the government for which a separate fund has not been established.

Special Revenue Funds - are used to account for restricted or committed revenues that comprise a substantial portion of the *inflows* of a fund.

Capital Projects Funds - are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary or Trust funds).

PROPRIETARY FUND TYPE

This fund type accounts for operations that are organized to be self-supporting through user charges. The fund included in this category is as follows:

Enterprise Funds - are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy management control, accountability, or other purposes.

Internal Service Fund – this fund is used by the School Department to manage their self-insured health care cost with WB Community Health.

FIDUCIARY FUND TYPES

These funds account for assets held by the Town as a trustee or agent for individuals, private organizations, and other units of governments. These funds are as follows:

Agency Funds - are used to account for funds that are to be used for educational and welfare expenditures and for funds held in escrow for other parties.

Private Purpose Trust Funds – These funds account for assets held by the Town under various trust arrangements for the benefit of certain individuals and groups.

Pension Trust Funds - is established to provide pension benefits to various employees of the Town. The principal revenue source for this fund is employer and employee contributions and investment income.

JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

BASIS OF ACCOUNTING

Measurement Focus – Government Wide Financial Statements

In the government wide financial statements the Statement of Net Position and Statement of Activities (governmental and business-type activities) are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expense, gains, losses, assets, deferred outflows of resources, liabilities and deferred inflows of resources resulting from exchange and exchange-like transactions should be recognized when the exchange takes place. Revenues, expense, gains, losses, assets, deferred outflows of resources, liabilities and deferred inflows of resources resulting from non-exchange transactions should be recognized in accordance with the requirements of Section N50.

BASIS OF ACCOUNTING

Those revenues susceptible to accrual are property taxes, franchise taxes, special assessments, licenses, interest revenue and charges for services. Sales taxes collected and held by the state at year-end on behalf of the government also are recognized as revenue. Fines, permits, and parking meter revenues are not susceptible to accrual because generally they are not measurable until received in cash.

The accounting and financial reporting treatment applied to the *fund financial statements* is determined by its measurement focus. All Governmental Fund Types are accounted for using a “current financial resources” measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All Proprietary Fund Types and Fiduciary Fund Types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., net total position) is segregated into contributed capital and retained earnings components. Proprietary Fund Type operating statements present increases (i.e., revenues) and decreases (i.e. expenses) in net total position.

All Governmental Fund Types and Agency Funds are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual, i.e. both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Licenses and permits, charges for services, fines, forfeits, and miscellaneous revenue are recorded as revenues when received in cash. Those revenues susceptible to accrual are property taxes and investment earnings. Fines and permits are not susceptible to accrual because generally they are not measurable until received in cash. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except expenditures for debt service and other long-term obligations, which are recognized when paid.

TOWN OF COVENTRY, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Non-current portions of long-term receivables of Governmental Fund Types are reported on their balance sheets, in spite of their spending measurement focus. Special reporting treatments are used to indicate however, that they should not be considered “available expendable resources” since they do not represent net current assets. Recognition of Governmental Fund Type revenues represented by non-current receivables is deferred until they become current receivables.

Because of their spending measurement focus, expenditure recognition for Governmental Fund Types excludes amounts represented by non-current liabilities. Since they do not affect net current position, such long-term amounts are not recognized as Governmental Fund Type expenditures or fund liabilities. They are instead reported as Long-term Liabilities – Governmental Activities.

In applying the “susceptible to accrual” concept to intergovernmental revenues the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of such revenues. For one type, amounts must be expended on the specific purpose or project before any amounts will be paid to the Town; therefore, revenues are recognized based upon the expenditures recorded.

For the other type, revenues are virtually unrestricted as to purpose of expenditure and revocable only for failure to comply with the prescribed requirements, such as a Community Development Block Grant. These resources are reflected as revenues at the time of receipt or earlier if they meet the “available” criteria.

All Proprietary Funds and Pension Trust Funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

Cash Equivalents

For the purpose of the Statement of Cash Flows, the Propriety Fund Types consider all highly liquid investments with a maturity date of three months or less when purchased to be cash equivalents.

Investments

Investments are Government Securities, Commercial Paper and various types of corporate stocks and bonds held in the Governmental and Fiduciary Fund types, which are recorded at fair value. Fair value is determined wherever possible, by use of published quoted amounts, where quotes are not available, formal valuations are obtained.

When discounts or premiums are present, the Town will capitalize and amortize the amount over the period of the related investment.

Inventories

Inventories of supplies are considered to be expenditures at the time of purchase. No significant inventory balances were on hand at June 30, 2019.

Capital Assets

Capital assets in Governmental Fund type operations are accounted for using the “current financial resources” measurement focus. Capital assets which include property, plant and equipment, and infrastructure (e.g. road, bridges, curbs and gutters, streets and sidewalks, and drainage systems) are reported in the applicable governmental or business-type activity columns in the government-wide financial statements. The Town

**TOWN OF COVENTRY, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

defines capital assets as assets with an individual cost of more than \$5,000 and an estimated useful life in excess of five years. Such assets are recorded at historical cost or estimated historical cost (for certain assets acquired prior to 1960). Donated assets are recorded at estimated fair market value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are recorded as expenditures as incurred.

The Town capitalizes certain interest costs in accordance with GASB Code Section 1400 as part of constructed assets. Interest is capitalized throughout the construction period in the Capital projects fund prior to the assets being transferred to the governmental fund and placed in service.

Property, plant and equipment for Proprietary Fund Types are valued at historical cost. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance is expensed as incurred.

Property, plant and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives (years)</u>
Building	20
Machinery and equipment	5-10
Improvements	10-20
Other infrastructure	10-50

Unearned Revenues

Unearned revenues represent funds received in advance of being owed or receivables, which will be collected and included in revenues of future fiscal years.

Deferred Outflows of Resources

Represent a consumption of net position or fund balance by a government that is applicable to a future reporting period.

Deferred Inflows of Resources

In addition to liabilities, the statement of net position and/or balance sheet can report deferred inflows of resources. Deferred inflows of resources represent the acquisition of net position that applies to a future period and which will not be recognized as an inflow of resources (revenue) until a later date.

Pensions - For purposes of measuring the net pension liability, net pension asset, deferred outflows of resources, and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Town of Coventry, Rhode Island’s various pension plans (described in more detail in Note 15) and additions to/deductions from the pension plans fiduciary net position have been determined on the same basis as they have been reported by the pension plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

TOWN OF COVENTRY, RHODE ISLAND

JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Equity Classifications

Government-Wide Statements - Equity is classified as Net Position and displayed in three components:

- **Net Investment in capital assets** - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- **Restricted** - Consists of Net Position with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- **Unrestricted** - All other Net Position that do not meet the definition of "restricted" or "net investment in capital assets".

Governmental Funds – Equity is classified into five categories:

The Town has adopted the requirements of the Government Accounting Standards Board GASB Statement No. 54 - *Fund Balance Reporting and Governmental Fund Type Definitions*. Acceptance of this statement has changed the Town's presentation of the elements of fund balances, a key indicator of inter-period equity. Listed below are the new fund balance categories and their definitions.

- **Non-spendable** – are balances that are permanently precluded from conversion to cash such as permanent funds and inventories.
- **Restricted** – requires that inflows and outflows of resources and balances be constrained to a specific purpose of enabling legislation, external parties or constitutional provisions.
- **Committed** – are balances with constraints imposed by the government using the highest level of decision-making authority. These constraints can only be removed or changed by the same decision making authority taking the same type of action.
- **Assigned** – are balances intended for a specific purpose by the government's management and are also appropriations of existing fund balances.
- **Unassigned** – are balances available for any purpose. They are not precluded by a management decision, law constitutional provision in the general fund.

The Town has set classification policies and procedures for the above noted level of fund balance reporting.

- a) For committed fund balances: the Town Council is the highest level of decision making authority and a meeting of the Town Council is required to establish, modify or rescind a fund balance commitment.
- b) For assigned fund balance: The Town's Finance Director and the School Department's Director of Administration are authorized to assign amounts to a purpose and with authorization given by the Town Council and the School Committee.
- c) The Town considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available and considers committed amounts to have been spent when an expenditure is incurred for purposes for which amounts in any other unrestricted fund balance could be used.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenues, Expenditures and Expenses

Revenues for governmental funds are recorded when they are determined to be both measurable and available. Generally, tax revenues, fees and non-tax revenues are recognized when received. Grants from other governments are recognized when qualifying expenditures are incurred. Expenditures for governmental funds are recorded when the related liability is incurred. Revenues and expenses of proprietary fund types are recognized using the full accrual basis of accounting. Revenue is recognized when earned and expenses as incurred.

Program Revenues and Expenses

In the statement of activities specific revenues are allocated to program expenses due to their direct relationships. Collections for licenses, fees, tickets and fines are among some of the revenue sources that are program revenues. Indirect expenses are not allocated to functions in the statement of activities.

Property Taxes

The Town is permitted by state law to levy property taxes. Current tax collections for the Town were approximately 99.18% of the total December 31, 2017 levy.

The Town's fiscal 2019 property taxes were levied in July of 2018 on assessed valuation as of December 31, 2017. Upon levy, taxes are billed quarterly and are due on August 15, November 15, February 15, and May 15. Failure to mail payments by due dates will result in lien on taxpayer's property. Assessed values are established by Tax Assessor's Office and are currently calculated at 100% of assessed value for real estate and 100% of market value for motor vehicles.

Vacation, Sick Leave, and Other Compensated Absences

Vacation leave is earned by all full-time Town employees. Upon termination, employees are entitled to receive compensation for their unused accrued vacation leave. Sick leave is earned by all full-time employees as well as part-time employees at the School Department. Unused vacation leave is paid upon an employee's termination. Upon retirement, municipal union employees are entitled to receive their accumulated sick leave up to 480 hours, policemen receive all accumulated unused sick leave up to 120 days, and school employees are entitled to receive compensation for their accrued sick leave balance, up to 140 days for teachers and classified personnel. Part-time employees are eligible to receive one half of the above amounts. Upon termination, the Town's non-union employees are entitled to one half of their accumulated sick leave up to 480 hours. Upon retirement eligible School Department employees are entitled to receive one half of their accumulated sick leave after 15 years of service.

For Governmental Fund Types accrued compensated absences are presented as a current liability for those amounts expected to be paid with current financial resources. For those compensated absences not to be paid with current financial resources the liability is recorded in the Statement of Net Position of the Government-Wide Financial Statements.

Inter-fund Transactions

Quasi-external transactions are accounted for as fund revenues, expenditures or expenses (as appropriate). Transactions which constitute reimbursements of a fund for expenditures or expenses initially made from it that are properly applicable to another fund are recorded as expenditures or expenses (as appropriate) in the reimbursing fund and as reductions of the expenditure or expense in the fund that is reimbursed. All inter-

TOWN OF COVENTRY, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

fund transactions, except advances, quasi-external transactions and reimbursements, are accounted for as transfers. Nonrecurring or non-routine transfers of equity between funds are considered equity transfers. All other inter-fund transactions are treated as operating transfers.

Short-Term Inter-fund Receivable/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or serviced rendered. These receivables and payables are classified as “internal balances” on the balance sheet.

Advances to Other Funds

Noncurrent portions of long-term inter-fund loan receivables are reported as advances and are offset equally by a fund balance reserve account which indicates that they do not constitute expendable available financial resources and, therefore, are not available for appropriations.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures / expenses during the reporting period. Actual results could differ from those estimates and the differences may be material.

NOTE 2 – BUDGETARY DATA AND BUDGETARY COMPLIANCE

In accordance with the Home Rule Charter, the Town has formally established budgetary accounting control for its General Fund and the School Unrestricted Fund, which is a Special Revenue Fund.

The General Fund is subject to an annual operating budget adopted at the financial Town Meeting. The School Unrestricted Fund is subject to an annual operating budget approved by the School Committee and adopted at the financial Town meeting. The annual operating budgets' appropriation amounts are supported by revenue estimates and take into account the elimination of accumulated deficits and the re-appropriation of accumulated surpluses to the extent necessary. Appropriations which are not expended or encumbered lapse at year end.

The School Department has established formal budgetary accounting as a management control for all funds. Annual operating budgets are adopted each fiscal year through the passage of an annual budget. The School Department budgets its expenditures based upon its estimate of state aid and the funding provided by the Town. Federal and state grants, included in the restricted special revenue fund, are not part of the legally adopted Town or School Department budget since their receipt is uncertain at the time the budgeting process is completed.

The General Fund and Special Revenue - School Unrestricted Fund's annual operating budgets are in conformity with generally accepted accounting principles. The budget to actual presentation in the financial statements is reflected on the budgetary basis. The only Special Revenue fund that has a legally enacted budget is the School Unrestricted Fund. Therefore, the budget and actual figures presented for Special Revenue Funds in the Combined Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual only include this fund.

NOTE 3 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Legal Debt Margin

The Town's legal debt margin as set forth by State Statute is limited to three percent of total assessed value, which approximates \$104,264,362 based on the December 31, 2017 assessment. As of June 30, 2019 the Town's debt is under the debt limit by \$71,119,362.

In addition to the bonding authority granted under §45-12-2 of the RI General Laws, the Town of Coventry can authorize bond issues pursuant to a special act of the RI General Assembly. Bond issues authorized by a special act of the General Assembly are normally not subject to any legal debt limit, but are subject to financial constraints such as the Town's ability and willingness to service the bonded debt.

NOTE 4 – CASH AND INVESTMENTS

Deposits: The Town maintains deposits in various financial institutions that are carried at cost except for those amounts which are carried as petty cash. The carrying amount of deposits is separately displayed on the balance sheet as "Cash and Cash Equivalents".

Investments: Investment of all idle funds are made through national banks or trust companies, providing that the financial conditions and integrity of these institutions are verifiable and can be monitored. The investment of funds are in direct obligations of the United States Government and "money market instruments" rated "A" or better. Investments in any one institution cannot exceed five (5) percent of that institutions capital and surplus as set forth in the institutions most recent audited financial statements. "All investments are made as would be done by prudent men of discretion and intelligence in such matters who are seeking a reasonable income and preservation of their capital."

Interest Rate Risk: The Town limits its exposure to fair value losses arising from changes in interest rates by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity, and investing operating funds primarily in shorter-term securities, money market funds, or similar investment pools.

Concentrations: The Town policy is to maintain a diversified portfolio to minimize the risk of loss resulting from over concentration of assets in a specific maturity.

Custodial Credit Risk

Deposits: This is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. As of June 30, 2019, \$5,180,059 of the Town's bank balance of \$34,070,010 was uninsured and uncollateralized.

Investments: This is the risk that in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

NOTE 4 – CASH AND INVESTMENTS (continued)

The Town categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements); followed by quoted prices in inactive markets or for similar assets or with observable inputs (Level 2 measurements); and the lowest priority to unobservable inputs (Level 3 measurements). The Town has the following recurring fair value measurements as of June 30, 2019:

NOTE 5 - PROPERTY TAXES

The Town is responsible for assessing, collecting, and distributing property taxes in accordance with enabling state legislation.

All property taxes for fund statement purposes are recognized in compliance with NCGA Interpretation-3 (Revenue Recognition - Property Taxes), which states that such revenue is recorded when it becomes measurable and available. Available means due, or past due and receivable within the current period and collected no longer than 60 days after the close of the current period. The Town does not use an allowance method for bad debts. It directly writes off receivables as they become un-collectible as per state law.

NOTE 7 - DIFFERENCES BETWEEN GOVERNMENTAL FUND BALANCE SHEET AND THE STATEMENT OF NET POSITION.

- (1) When capital assets (land, buildings, equipment) that are to be used in governmental activities are purchased or constructed, the cost of these assets are reported as expenditures in governmental funds. However, the statement of net position includes those capital assets among the assets of the Town as a whole.

Because the focus of governmental funds is on short term financing, some assets will not be available to pay for current-period expenditures. Those assets (for example receivables) are offset by deferred revenues in the governmental funds and thus are not included in the fund balance.

TOWN OF COVENTRY
NOTES TO FINANCIAL STATEMENTS
June 30, 2019

NOTE 8 - DIFFERENCES BETWEEN GOVERNMENTAL FUND OPERATING STATEMENTS AND THE STATEMENT OF ACTIVITIES

(1) Because some property taxes and other receivables will not be collected for several months after fiscal year ends, they are not considered as "available" revenues in the governmental funds.

Unearned revenue property taxes	(74,008)
	\$ (74,008)

Interest expense in the statement of activities differs from the amount reported in governmental funds . Accrued interest was calculated for bonds and notes payable.

Accrued interest expenditure adjustment	\$ (48,493)
---	-------------

(2) When capital assets that are to be used in governmental activities are purchased or constructed, the resources expended for those assets are reported as expenditures in governmental funds. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. As a result, fund balance decreases by the amount of financial resources expended, whereas net position decrease by the amount of depreciation expense charged for the year.

Capital outlay	7,731,683
Depreciation expense	(3,801,508)
Difference	\$ 3,930,175

(3) Internal service funds are use by management to charge the cost of certain activates, such as health care to individual funds. The adjustments for internal service funds "close" those funds by charging additional amounts or reducing expenditures to the governmental funds thus eliminating any surplus or deficit on the internal service fund.

	\$ (360,957)
--	--------------

(3) Other accrued expenditures are not recorded on the funds statement but are shown on the statement of activities in order to present the true financial position of the Town on its long-term liabilities.

Net (increase)/decrease in compensated absences	\$ (129,606)
Net (increase)/decrease in net pension liability	(361,029)
Net increase/(decrease) in net pension asset	415,388
Net (increase)/decrease in net OPEB liability	(773,855)
Net increase/(decrease) in net deferred outflows	(1,627,854)
Net (increase)/decrease in deferred inflows	1,442,892
Difference	\$ (1,034,064)

Repayment of bond and note principal is reported as an expenditure in the governmental funds and, thus, has the effect of reducing fund balance because current financial resources have been used. For the town as a whole, however, the principal payments reduce the liabilities in the statement of net position an do not result in an expense in the statement of activities.

Bond principal payments	3,741,000
Issuance of debt	(7,050,000)
Bond premium amortization	78,865
Premium on issuance of debt	(249,424)
Prepaid bond insurance amortization	(2,121)
Total principal payments made	\$ (3,481,680)

- ***Assigned*** – are balances intended for a specific purpose by the government’s management and are also appropriations of existing fund balances.
- ***Unassigned*** – are balances available for any purpose. They are not precluded by a management decision, law constitutional provision in the general fund.

NOTE 14 - SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES

A. Litigation

The Town has been named as a responsible party in connection with the investigation and remediation of the former Coventry landfill owned and operated by the Town and located off Arnold Road in Coventry. The Town is one of a number of persons to whom a Letter of Responsibility was issued in June, 2003 by the Rhode Island Department of Environmental Management requiring such persons to conduct the investigation and remediation of the landfill under applicable state and federal law and regulations. The Town is one of a number of such persons who executed and delivered that certain Partial Consent Decree in 2005 in the case of State of Rhode Island, Department of Environmental Management v. Town of Coventry, pursuant to which the signatories agree to conduct and pay for an environmental investigation of the site.

The current estimate of the total cost of the remediation of the landfill is approximately \$7 - \$10 million (of which the Town is obligated under the above Agreement to pay 60% thereof). However, it is expected that due to the ongoing use of Beneficial Use Determination (“BUD”) materials, which Performing Parties accept tipping fees for the material it receives to use as cover at the Landfill, the overall cost of the remediation may be significantly less than the estimated amount, and the Performing Parties could complete the remediation with a monetary surplus. For a period of approximately 30 years thereafter, the Performing Parties will need to fund operation and maintenance of the landfill to satisfy RIDEM requirements, which could cost the Town approximately \$600,000 over that 30-year period. Negotiations are under way which, if successful, may result in the further acceptance of additional BUD materials at the landfill which would be used to offset most of the \$600,000 in going-forward operation and maintenance costs following landfill closure.

During the ordinary course of its operations, the Town is a party to various claims, other legal actions and complaints. These various legal actions include disputes in property valuations and torts for which the Town has been named as a defendant. In the opinion of the Town's management and legal counsel, other than the matter stated above they do not anticipated any of them to have a material financial impact or at this time their legal counsel has been unable to assess liability, if any, on the part of the Town.

B. Federally Assisted Programs - Compliance Audits

The Town participates in a number of federally assisted programs. The audits of these programs through the year ended June 30, 2019 were audited in connection with the accompanying financial statements under the Single Audit Concept and the auditor's reports thereon are presented in the Single Audit Report. Management believes that the amounts, if any, of expenditures, which may be disallowed, will not be material to the financial position of the Town.

NOTE 15 - PENSION PLANS

In the fiscal year ended June 30, 2015 the Town adopted the requirements of the Government Accounting Standards Board GASB Statement No. 68 - Accounting and Financial Reporting for Pension – an amendment of GASB Statement No. 27. The objective of the Statement is to improve financial reporting by state and local governmental pension plans. The Statement resulted from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency. The Statement amends Statement No. 27 *Accounting for Pensions by State and Local Governmental Employees*, as it relates to pension plans that are administered through trusts or equivalent arrangements (hereafter jointly referred to as trusts) that meet certain criteria.

Substantially all full-time employees of the Town of Coventry are covered by one of seven separate pension plans, each one of which are discussed below.

1. Municipal Employees Retirement Plan (Town Plan)

Plan Description

The Town of Coventry contributes to the Town's Municipal Employee Retirement Plan, which is a single-employer public employee retirement system (PERS). This plan was established by the Town in accordance with the Town Charter and Federal and State Statutes.

Substantially all employees of the Town, except police, school employees and administrators, and some Town administrators are covered under this defined benefit municipal plan. All members of the Plan contribute specified percentages of their annual compensation to the plan.

As of July 1, 2018, employee membership data related to this plan was as follows:

Active Members	85
Inactive Members	36
Retired Members	<u>78</u>
TOTAL	<u>199</u>

TOWN OF COVENTRY, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 15 – PENSION PLANS – (continued)

1. Municipal Employees Retirement Plan (Town Plan) (continued)

Plan Description

Under the provisions of the plan, benefits vest after ten years of creditable service. An employee may retire at age 62 with ten years of creditable service for full benefits, or at age 55 with ten years of creditable services for reduced benefits. This pension plan also provides disability and death benefits. Benefits begin vesting after four years of service and become fully vested after ten years of service. An employee's annual pension is determined by multiplying 2% of his average monthly pay by a benefit service rate. The average monthly pay is determined using the five highest consecutive pay years out of the ten latest pay years which give the highest average. The benefit service rate is the sum of the total periods of service. Under the provisions of the plan, all active employees are required to contribute 10% of total pay.

In addition to pension benefits, this plan also provides disability and death benefits. In order to receive disability benefits an employee must have at least ten years of creditable service when he becomes disabled and the employee must be totally disabled. Monthly disability benefits equal 25% of the employee's average monthly pay. Payments continue for the duration of the disability or until the employee reaches his early or normal retirement date.

Death benefits are available to qualified employees. An employee is a qualified if he/she 1) dies before retirement benefits begin, 2) was married for the full year before his death, and 3) if becoming an active member on or after July 1, 1991, has an account, or if becoming an active member prior to July 1, 1991, has a vesting percentage greater than zero. The death benefit equals the survivor's benefit at 50% survivor form and is payable as of the earliest date the employee could have retired on or after the date of death.

Summary of Significant Accounting Policies

Basis of Accounting

The plan's policy is to prepare its financial statements on the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to the plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Valuation of Investments

Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

NOTE 15 – PENSION PLANS – (continued)

1. Municipal Employees Retirement Plan (Town Plan) (continued)

Plan Description

Contributions

All Active members are required to contribute 10% of compensation to the plan. Any remaining obligation with respect to the pension plan shall be paid by the employer. The Town makes annual contributions to the plan based on its legally adopted budget.

Summary of Significant Accounting Policies

Investments

The pension plan’s policy in regard to the allocation of invested assets is established and may be amended by the MERP Board by a majority vote of its members. It is the policy of the MERP Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan’s investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. The following was the Board’s adopted asset allocation policy as of June 30, 2019:

<u>Asset Class</u>	<u>Target Allocation</u>
Domestic equity	34.89%
International equity	21.78%
Fixed income	35.83%
Other	7.50%
Total allocation	<u>100.00%</u>

Rate of return: For the year ended June 30, 2019, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 6.37%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

The components of the net position liability of the Town of Coventry at June 30, 2019, were as follows:

NOTE 15 - PENSION PLANS (continued)

1. Municipal Employees Retirement Plan (Town Plan) (continued)

Summary of Significant Accounting Policies

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Asset Class	Long-Term Expected Real Rate of Return
Domestic equity	5.11% to 6.53%
International equity	5.66% to 8.19%
Fixed income	2.69% to 5.70%
Other	2.17% to 4.16%

Discount rate: The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Town contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate: The following presents the net pension liability of the Town, calculated using the discount rate of 7.00%, as well as what the Town's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage point higher (8.00%) than the current rate: 7.00%

2. Town Police Pension Plan

Plan Description

The Retirement Income Plan for the Police Officers of the Town of Coventry Pension Plan is a single-employer defined benefit pension plan. The plan is governed by the Town of Coventry which may amend plan provisions, and which is responsible for the management of the assets.

As of July 1, 2018, employee membership data related to this plan was as follows:

Active members	57
Inactive members	11
Retired members	<u>79</u>
	<u>147</u>

Under the provisions of the plan, benefits vest at various times depending on the date of hire. An employee may retire at age 55 with twenty years of creditable service if employed prior to January 1, 1994 or twenty-three years if employed on or after January 1, 1994. This plan also provides disability and death benefits. A participant's earned benefit is equal to 50% of earnings. A participant's earnings are the compensation received during the preceding twelve month period, including holiday pay, longevity, vacation time and overtime. In addition, participants employed prior to January 1, 1994, may be eligible for a cost-of-living adjustment.

In addition to pension benefits, this plan also provides disability and death benefits. In order to receive disability benefits a participant must become disabled in the line of duty and that disability must be expected to last at least two years. In this situation the participant will receive a 66 2/3% disability retirement benefit on the earlier of the date of completion of ten years of service or the date at which the participant reaches his normal retirement date. If the disability is not in the line of duty, but it is expected that the participant will be unable to return to active duty and the participant has ten years of service with the Town of Coventry, the participant will be entitled to a 25% disability benefit for up to one year. If after one year, the participant is still unable to work, the participant will automatically be retired.

Death benefits are available to qualified employees. If a participant dies before his normal retirement date, his beneficiary will receive a single sum payment of the employee's account, accumulated with interest. If death occurs after the normal retirement date, but before actual retirement, the participants' surviving spouse will receive a monthly benefit equal to the retirement benefit that participant would have received if retired on the date of death. If death occurs after retirement date, a death benefit will be paid to the participant's surviving spouse, dependent child, or beneficiary.

2. Police Pension Plan

Plan Changes

For members hired after December 31, 2012:

- The employee contribution rate is 12%
- Longevity pay is removed from pensionable compensation.
- Retirement eligibility is 25 years of Credited Service, but no earlier than age 55.
- The final average earnings period is the final 5 years of base compensation.
- The normal benefit equals 50% of the average base pay of the 5 years immediately preceding retirement. For any member who works beyond 25 years, his or her pension benefit shall be increased by 2% for each year worked to a maximum of 60% of the 5-year average base pay.

Basis of Accounting

The plan's policy is to prepare its financial statements on the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to the plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Valuation of Investments

Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

Contributions

Active members hired between January 1, 1994 and December 31, 2012 will continue to contribute 11% of their base pay effective on July 1, 2016 with an increase to 12% effective July 1, 2017 (previously 10% effective on July 1, 2015). All other employees will contribute 9.5% of their total annual compensation effective on July 1, 2016 with an increase to 11% effective on July 1, 2017 (previously 8% effective on 7/1/2000).

2. Police Pension Plan

Summary of Significant Accounting Policies

Investments

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Police Pension Board by a majority vote of its members. It is the policy of the Police Pension Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. The following was the Board's adopted asset allocation policy as of June 30, 2019:

Asset Class	Target Allocation
Domestic equity	34.89%
International equity	21.78%
Fixed income	35.83%
Other	7.50%
Total allocation	100.00%

Rate of return: For the year ended June 30, 2019, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 6.60%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

The components of the net position liability of the Police Pension Plan at June 30, 2019, were as follows:

Net Pension Liability of the Police Pension Plan

	<u>June 30, 2019</u>

2. Police Pension Plan

Summary of Significant Accounting Policies

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation are from our actuary firm Milliman's investment consulting practice as of December 31, 2018.

Asset Class	Long-Term Expected Real Rate of Return
Domestic equity	5.11% to 6.53%
International equity	5.66% to 8.19%
Fixed income	2.69% to 5.70%
Other	2.17% to 4.16%

Discount rate: The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Town contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate: The following presents the net pension liability of the Town, calculated using the discount rate of 7.00%, as well as what the Town's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage point higher (8.00%) than the current rate: 7.00%

3. Coventry Teacher's Alliance School Related Personnel (CTASRP) Pension Plan

Plan Description

The Coventry Teacher's Alliance School Related Personnel Pension Plan is a single-employer defined benefit pension plan. The plan is governed by the Town of Coventry which may amend plan provisions, and which is responsible for the management of the assets.

As of July 1, 2018, employee membership data related to this plan was as follows:

Active members	226
Inactive members	27
Retired members	<u>151</u>
	<u>404</u>

Under the provisions of the plan, benefits vest at various times depending on the date of hire. The plan covers school related personnel (non-teaching personnel) who are members of the bargaining unit. Each school employee who is a member of the Union shall be a participant of the plan. Participants contribute 8% of their annual compensation received in a Plan year. The Town makes two types of annual contributions to the plan. The first such amount as is set forth under the relevant terms of the collective bargaining agreement between the Employer and the Union and is equal to 12.75% of the regular payroll of employees subject to the Plan. The second such amount shall be annually determined by an actuary for the Plan.

The pension plan is considered to be a single-employer defined benefit pension plan that was administered by an independent board of trustees as of December 31, 2016. This plan, originally established in April 1977, was most recently restated as of February 11, 2016 by the School Committee of the Town of Coventry and the CTA/SRP Local 1075 (the "Union") in accordance with Federal and State Statutes.

Under the provisions of the Plan, benefits vest after ten years of creditable service. A participant may retire at age 65 with ten years of creditable service or upon completion of thirty years of creditable service, regardless of age, for full benefits, or age 60 with fifteen years of creditable service for reduced benefits. Benefits fully vest after ten years of service. An employee's annual pension is determined by multiplying a specified percentage to the employee's annual compensation and the number of years of service.

In addition to pension benefits, this plan also provides disability and death benefits. A participant is entitled to receive disability benefits determined at the date of disability retirement, in an amount equal to the actuarial equivalent of accrued benefit the employee must be separates from service by reason of total and permanent disability. The condition must have existed for a period of at least three months and must prevent the participant from engaging in substantial gainful activity.

Death benefits are available to qualified employees. A participant's beneficiary shall be entitled to death benefits equal to the actuarial equivalent of the participant's accrued benefit, determined as of the date of death. Qualified pre-retirement survivor annuity benefits provide a monthly pension benefit equal to the amount which the spouse would have received if the participant had retired on the day before death and elected a joint and 50% surviving spouse annuity which was the actuarial equivalent of the vested accrued benefit. The Plan does not provide for Cost of Living Adjustments (COLA's).

4. Employee's Retirement System of the State of Rhode Island (ERS)

General Information about the Pension Plan

Plan description - Certain employees of the Coventry School Department participate in a cost-sharing multiple-employer defined benefit pension plan - the Employees' Retirement System plan - administered by the Employees' Retirement System of the State of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides retirement and disability benefits and death benefits to plan members and beneficiaries.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans. The report may be obtained at <http://www.ersri.org>.

Benefit provisions – The level of benefits provided to participants is established by Chapter 36-10 of the General Laws, which is subject to amendment by the General Assembly. Member benefit provisions vary based on service credits accumulated at dates specified in various amendments to the General Laws outlining minimum retirement age, benefit accrual rates and maximum benefit provisions. In general, members accumulate service credits for each year of service subject to maximum benefit accruals of 80% or 75%. For those hired after June 30, 2012, the benefit accrual rate is 1% per year with a maximum benefit accrual of 40%. Members eligible to retire at September 30, 2009 may retire with 10 years of service at age 60 or after 28 years of service at any age. The retirement eligibility age increases proportionately for other members reflecting years of service and other factors until it aligns with the Social Security Normal Retirement Age, which applies to any member with less than 5 years of service as of July 1, 2012. Members are vested after 5 years of service.

The plan provides for survivor's benefits for service connected death and certain lump sum death benefits. Joint and survivor benefit provision options are available to members.

Cost of living adjustments are provided but are currently suspended until the collective plans administered by ERSRI reach a funded status of 80%. Until the plans reach an 80% funded status, interim cost of living adjustments are provided at four-year intervals commencing with the plan year ending June 30, 2016.

The plan also provides nonservice-connected disability benefits after five years of service and service-connected disability benefits with no minimum service requirement.

Contributions - The funding policy, as set forth in the General Laws, Section 16-16-22, provides for actuarially determined periodic contributions to the plan. For fiscal 2019, Coventry School Department teachers were required to contribute 3.75% of their annual covered salary except for teachers with twenty or more years of service as of June 30, 2012 must contribute 11% of their annual covered salary. The state and the Coventry School Department are required to contribute at an actuarially determined rate, 40% of which is to be paid by the state and the remaining 60% is to be paid by Coventry School Department; the rates were 10.06% and 13.45% of annual covered payroll for the fiscal year ended June 30, 2019 for the state and Coventry School Department, respectively. The Coventry School Department contributed \$4,791,770, \$4,759,439 and \$4,948,791 for the fiscal years ended June 30, 2019, 2018 and 2017, respectively, equal to 100% of the required contributions for each year. The State’s share of the contribution for the fiscal year 2019 was \$3,582,770 and is reported as on-behalf payments and included in both revenue and expenditures on the financial statements.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2019, the Coventry School Department reported a liability of \$65,346,536 for its proportionate share of the net pension liability that reflected a reduction for contributions made by the state. The amount recognized by the Coventry School Department as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with the Coventry School Department were as follows:

Coventry School Dept's proportionate share of the net pension liability	\$ 65,346,536
State's proportionate share of the net pension liability associated with the Coventry School Dept.	<u>48,743,822</u>
Total net pension liability	<u>\$ 114,090,358</u>

The net pension liability was measured as of June 30, 2018, the measurement date, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017 rolled forward to June 30, 2018. The Coventry School Department’s proportion of the net pension liability was based on a projection of the Coventry School Department’s long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the state, actuarially determined. At June 30, 2018 the Coventry School Department proportion was 2.05670231%.

4. Employee’s Retirement System of the State of Rhode Island (ERS)

\$4,791,770 reported as deferred outflows of resources related to pensions resulting from the Coventry School Department’s contributions in fiscal year 2019 subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent period. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2020	\$ 1,143,121

Actuarial Assumptions - the total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	3.0% to 13.50%
Investment rate of return	7.0%

Mortality – variants of the RP-2014 mortality tables – for the improvement scale, update to the ultimate rates of the MP-2016 projection scale.

The actuarial assumptions used in the June 30, 2017 valuation rolled forward to June 30, 2018 and the calculation of the total pension liability at June 30, 2018 were consistent with the results of an actuarial experience study performed as of June 30, 2016.

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 34 sources. The June 30, 2018 expected arithmetic returns over the long-term (20 years) by asset class are summarized in the following table:

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

Discount rate - the discount rate used to measure the total pension liability was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

5. Defined Benefit Pension Plan (Survivors Benefit)

Plan description - Certain employees of the Coventry School Department participate in a cost-sharing multiple-employer defined benefit pension plan - the Teachers’ Survivors Benefit plan - administered by the Employees’ Retirement System of the State of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers’ payment of its pension obligation to the plan. The plan provides a survivor benefit to public school teachers in lieu of Social Security since not all school districts participate in Social Security.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans. The report may be obtained at <http://www.ersri.org>.

Eligibility and plan benefits - the plan provides a survivor benefit to public school teachers in lieu of Social Security since not all school districts participate in the plan. Specific eligibility criteria and the amount of the benefit is subject to the provisions of Chapter 16-16 of the Rhode Island General Laws which are subject to amendment by the General Assembly. Spouse, parents, family and children’s benefits are payable following the death of a member. A spouse shall be entitled to benefits upon attaining the age of sixty (60) years. Children’s benefits are payable to the child, including a stepchild or adopted child of a deceased member if the child is unmarried and under the age of eighteen (18) years or twenty-three (23) years and a full time student, and was dependent upon the member at the time of the member’s death. Family benefits are provided if at the time of the member’s death the surviving spouse has in his or her care a child of the deceased member entitled to child benefits. Parents benefits are payable to the parent or parents of a deceased member if the member did not leave a widow, widower, or child who could ever qualify for monthly benefits on the member’s wages and the parent has reached the age of 60 years, has not remarried, and received support from the member.

In January, a yearly cost-of-living adjustment for spouse’s benefits is paid and based on the annual social security adjustment.

Survivors are eligible for benefits if the member has made contributions for at least six months prior to death or retirement.

5. Defined Benefit Pension Plan (Survivors Benefit)

The TSB plan provides benefits based on the highest salary at the time of retirement of the teacher. Benefits are payable in accordance with the following table:

Highest Annual Salary	Basic Monthly Spouses' Benefit
\$17,000 or less	\$ 825.00
\$17,001 to \$25,000	\$ 962.50
\$25,000 to \$33,000	\$ 1,100.00
\$33,001 to \$40,000	\$ 1,237.50
\$40,001 and over	\$ 1,375.00

Benefits payable to children and families are equal to the spousal benefit multiplied by the percentage below:

Parent and 1 child	Parent and 2 or more children	One child alone	Two children alone	Three or more children alone	Dependent parent
150%	175%	75%	150%	175%	100%

Contributions - The contribution requirements of active employees and the participating school districts were established under Chapter 16-16 of the Rhode Island General Laws, which may be amended by the General Assembly. The cost of the benefits provided by the plan are two percent (2%) of the member's annual salary up to but not exceeding an annual salary of \$11,500; one-half (1/2) of the cost is contributed by the member by deductions from his or her salary, and the other half (1/2) is contributed and paid by the respective school district by which the member is employed. These contributions are in addition to the contributions required for regular pension benefits.

The Coventry School Department contributed \$51,579, \$53,688 and \$42,948 for the fiscal years ended June 30, 2019, 2018 and 2017, respectively, equal to 100% of the required contributions for each year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2019 the Coventry School Department reported an asset of \$6,438,556 for its proportionate share of the net pension asset related to its participation in TSB. The net pension asset was measured as of June 30, 2018, the measurement date, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of June 30, 2017 rolled forward to June 30, 2018. The Coventry School Department's proportion of the net pension asset was based on its share of contributions to the TSB for fiscal year 2018 relative to the total contributions of all participating employers for that fiscal year. At June 30, 2018 the Coventry School Department's proportion was 7.21574279%.

For the year ended June 30, 2019 the Coventry School Department recognized pension credit of (\$117,058) – an increase in the net pension asset. At June 30, 2019 the Coventry School Department reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

The Town of Coventry contributes to the School Administration Pension Plan. This plan is a defined contribution plan that covers certain school administrators who do not qualify for other school pension plans. The plan was established by the Town in accordance with the Town Charter and Federal and State Statutes.

The Town makes contributions to this plan based on the Town’s contribution requirements for the Certified School Employees Pension Plan. In addition, participants may contribute a percentage of their annual salary to the plan based on applicable tax law. Under the provisions of the plan, benefits vest in the Town’s contributions after three years of creditable service. This pension plan also provides disability and death benefits.

Employees participating in the defined benefit plan with less than 20 years of service as of June 30, 2012, as described above, also participate in a defined contribution plan authorized by General Law Chapter 36-10.3. The defined contribution plan is established under IRS section 401(a) and is administered by TIAA-CREF. Employees may choose among various investment options available to plan participants. Employees contribute 5% of their annual covered salary and employers contribute between 1% and 1.5% of annual covered salary depending on the employee's total years of service as of June 30, 2012. Employee contributions are immediately vested while employer contributions and any investment earnings thereon are vested after three years of contributory service. Benefit terms and contributions required under the plan by both the employee and employer are established by the General Laws, which are subject to amendment by the General Assembly.

Amounts in the defined contribution plan are available to participants in accordance with Internal Revenue Service guidelines for such plans.

The Coventry School Department recognized pension expense of \$842,294 for the fiscal year ended June 30, 2019.

8. Defined Contribution Plan

B. Local Defined Contribution Plan

Plan Description

In fiscal year 2014, the Town created a new defined contribution plan for employees hired after July 1, 2013. The Plan, which is a single-employer public employees defined contribution plan, was established by the Town Council in accordance with the Town charter and Federal and State statutes. Under the provisions of the Plan, all employees hired on or after July 1, 2013 are able to participate in a defined contribution plan in which the Town will match employee contributions, up to 10% of an employee’s annual base wage, the terms of which shall be negotiated by the parties. Employee contributions are 100% vested from day one of employment.

Net OPEB Liability of the Town

The components of the net OPEB liability of the Town at June 30, 2019, were as follows:

Total OPEB liability	\$	17,880,857
Plan fiduciary net position		-
Town's net OPEB liability		\$ 17,880,857
Plan fiduciary net position as a percentage of the total OPEB liability

Discount Rate

The discount rate used to measure the total OPEB liability was 3.50%. The projection of cash flows used to determine the discount assumed that plan member contributions will be made at the current contribution rate and that Town contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the plans fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

NOTE 17 - RISK MANAGEMENT

The Town of Coventry is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; injuries to employees; and natural disasters. As a result, the Town participates in a non-profit, public entity risk pool (Rhode Island Inter-local Risk Management Trust, Inc.) that provides coverage for property/liability claims and workers' compensation claims. Upon joining the Trust, the Town signed a participation agreement that outlines the rights and responsibilities of both the Trust and the Town. The agreement states that for premiums paid by the Town, the Trust will assume financial responsibility for the Town's losses up to the maximum amount of insurance purchased, minus the Town's deductible amounts. The policy is not retrospectively rated, but rather, premiums are based on the ultimate cost of the groups experience to date. The pool is allowed to make additional assessments for claims that are reasonably possible and estimable.

The Trust provides this insurance coverage through a pooled, self-insurance mechanism, which includes reinsurance purchased by the Trust to protect against large, catastrophic claims above the losses the Trust, retains internally for payment from the pooled contributions of its Members. Under the participation agreement, the Town is insured for a maximum of \$5,000,000 per occurrence. Settled claims resulting from these risks have not exceeded the Trust coverage in any of the past three fiscal years. And it is not anticipated that the risks will exceed the trust coverage in the current year. There were no reductions in the insurance coverage during the fiscal year up and through the report date.

The town insures the entire risk arising from employee related health issues through the purchase of standard health insurance policies for all employees. Policy costs are charged in full to insurance expense in the general, special revenue and enterprise funds on a monthly basis. There are no retrospective adjustments to the monthly premiums charged to the town. The carrier, in advance of the new policy year and to account for the town's historical costs, adjusts the premiums annually.

Self-insurance:

The School Department participates in a multi-employer cost reimbursement healthcare self-insurance risk pool managed by WB Community Health (WBCH) which is presented as an Internal Service Fund in the Proprietary Funds of the Towns financial statements. The School Department pays WBCH monthly premiums based upon "working rates" that are periodically adjusted to reflect changes in actual costs. Funds on deposit with WBCH are made available to pay claims, claim reserves and administrative costs. As of June 30, 2019, the reported expenditures exceeded premiums on deposit by \$360,957 which resulted in a balance of \$1,417,609 in the net adjusted reserve.

Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for IBNR claims. The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, including retroactive assessments for hospital costs and other settlements occurring after the end of the fiscal year and not determinable at the end of the fiscal year. An excess coverage insurance policy covers individual claims exceeding \$125,000.

NOTE 17 - RISK MANAGEMENT (continued)

Changes in the deposit balance for fiscal year 2019 is as follows:

	Year ended June 30, 2019
Beginning cumulative surplus (deficit)	\$ 1,275,205
Premium deposits	9,206,284
Incurred claims (excluding IBNR)	(9,697,731)
Administrative fees	(43,108)
Ending cash deposit balance	740,650
Change in IBNR (three month estimate)	173,598
Run out reserve balance	503,361
Net adjusted reserve	\$ 1,417,609

NOTE 18 – RESTATEMENT

The School Department has reclassified a former Agency Fund to a GASB 54 fund that is now part of the School Departments general fund. The Little Oakers Pre-School account is now being combined with the School Departments general fund for financial reporting purposes. This change increased the School Departments general funds fund balance by \$72,754 which also increased the net position of the Governmental Activities by the same \$72,754.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
JUNE 30, 2019

The accompanying Statement of Revenues, Expenditures / Expenses (GAAP or Budgetary Basis Non-GAAP) presents comparisons of the legally adopted budget with actual data on a budgetary basis. Because accounting principals applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with GAAP, a reconciliation of resultant basis, entity and timing differences in the excess (deficiency) of revenues and other financial resources over expenditure / expenses and other uses of financial resources for the year ended June 30, 2019 is presented below:

	<u>General Fund</u>	<u>School Unrestricted</u>
Excess (deficiency) of revenues and other sources over (under) expenditures and other uses (budgetary basis)	\$ 1,856,158	\$ 289,861
Excess of revenues and other sources over expenditures and other uses of funds classified with the General Fund for purposes of GASB Statement No. 54	370,027	(61,404)

TOWN OF COVENTRY, RHODE ISLAND
Notes to Supplementary Information
Annual Supplemental Transparency Report (MTP2)
June 30, 2019

NOTE 1. Basis of Presentation

The *Annual Supplemental Transparency Report (MTP2)* is a supplemental schedule required by the State of Rhode Island General Laws 45-12-22.2 and 44-35-10. This supplementary schedule included within the audit report is part of a broader project to create a municipal transparency portal (MTP) website to host municipal financial information in a centralized location.

The format of the *Annual Supplemental Transparency Report (MTP2)* was prescribed by the State Department of Revenue (Division of Municipal Finance), Office of the Auditor General, and the Department of Education.

NOTE 2. Reportable Government Services

Data consistency and comparability are among the key objectives of the State's Municipal Transparency portal. Consistent with that goal, the State has defined "reportable government services", RGS, to include those operational revenues, expenditures, and transfers related to activities which are essential to the achievement of municipal operations. The determination of RGS may be different from the activities included within the legally adopted budget of the municipality. In practice, some communities report certain RGS in separate funds (e.g., special revenue funds, enterprise funds) rather than the municipality's general fund. The *Annual Supplemental Transparency Report (MTP2)* includes a reconciliation to the fund level statements.

NOTE 3. Allocations

The State reporting requires expenditures to be reported by departments, as defined by the State. Some of the departmental groupings are not consistent with the departments reflected in the Town's budget and accounting system. To report these costs, the Town's made allocations of costs to the State's departmental groupings based on a reasonable basis.

NOTE 4. Employee Groups - Compensation and Benefit Costs

Compensation includes salaries, longevity, stipends, clothing allowance/maintenance, shift differential, out-of-rank, holiday pay and bonuses.

For Public Safety departments (i.e., police, fire, and centralized dispatch) and the Education Department, compensation and most benefits costs are reported in the following employee groupings:

Group A: This group consists of employees who serve the primary function of the department.

- Police Department - police officers (e.g., uniform personnel - including, leadership positions)
- Fire Department - fire fighters (e.g., uniform personnel - including, leadership positions)
- Centralized Dispatch Department - civilian dispatchers only
- Education Department - professional staff providing direct services to students

TOWN OF COVENTRY, RHODE ISLAND
Notes to Supplementary Information
Annual Supplemental Transparency Report (MTP2)
June 30, 2019

- For the remaining departments - all employees' compensation and benefits are reported under Group A

Group B: For Police and Fire Departments, compensation and benefits paid to its administrative employees and civilian dispatch employees are reported under Group B. The Education Department reports compensation and benefits paid to executive/mid-level educational administration employees under Group B.

Group C: This group is only used for the Education Department and it includes administrative and support staff.

Other post-employment benefits (OPEB) are not reported by employee groups on the MTP2. They are reported in total as either (1) contributions to a qualified OPEB trust or (2) the amount paid for medical and dental insurance for retirees when an OPEB trust fund has not been established. The detail employee group information for the Education Department can be found on the State's Municipal Transparency portal website.

NOTE 5. Education Revenue and Expenditures

The revenues and expenditures presented on the MTP2 under the Education Department is consistent with existing Uniform Chart of Accounts (UCOA) guidelines. Each MTP account code has been mapped to the corresponding UCOA code or group of UCOA codes to facilitate the preparation of the MTP reporting.

Additional guidance and definitions regarding the State's Municipal Transparency Portal can be found on the State Division of Municipal Finance website: <http://www.municipalfinance.ri.gov/>.

STATISTICAL SECTION

The Statistical Schedules differ from other financial statement presentations because they generally disclose more than one fiscal year and may present non-accounting data such as social and economic data and financial trends of the Town.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

INDEPENDENT AUDITOR'S REPORT

The Honorable President
and Members of the Town Council
Town of Coventry, Rhode Island

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business type activities, each major fund, and the aggregate remaining fund information of the Town of Coventry, Rhode Island as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Town of Coventry's basic financial statements, and have issued our report thereon dated February 4, 2020

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Town of Coventry's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Town of Coventry's internal control. Accordingly, we do not express an opinion on the effectiveness of Town of Coventry's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

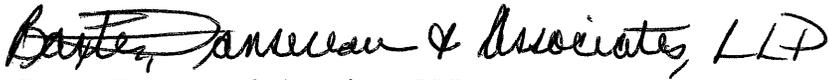

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Town of Coventry's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an

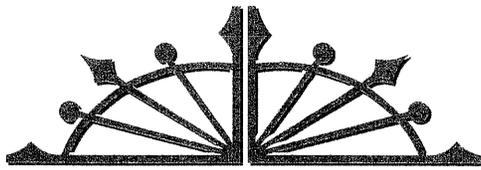

objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

INDEPENDENT AUDITOR'S REPORT

The Honorable President
and Members of the Town Council
Town of Coventry, Rhode Island

Report on Compliance for the Major Federal Program

We have audited the Town of Coventry's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Town of Coventry, Rhode Island's major federal programs for the year ended June 30, 2019. The Town of Coventry's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Town of Coventry, Rhode Island's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Town of Coventry, Rhode Island's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Town of Coventry, Rhode Island's compliance.

Opinion on Each Major Federal Program

In our opinion, the Town of Coventry, Rhode Island, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

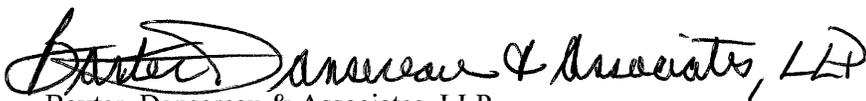

Report on Internal Control Over Compliance

Management of the Town of Coventry, Rhode Island, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Town of Coventry, Rhode Island's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Town of Coventry, Rhode Island's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

TOWN OF COVENTRY, RHODE ISLAND
Notes to Schedule of Expenditures of Federal Awards
June 30, 2019

NOTE 1 - BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the schedule) includes the federal grant activity of the Town of Coventry, Rhode Island under programs of the federal government for the year ended June 30, 2019. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of the Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the Town of Coventry, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the Town of Coventry, Rhode Island.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of the Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE 3 - Indirect Cost Rates

The Town of Coventry has elected to use the 10 percent de-Minimis indirect cost rate as allowed under the Uniform Guidance when applicable.

NOTE 4 - Non-Cash Assistance – School Lunch Commodities

Nonmonetary assistance is reported in the Schedule of Expenditures of Federal Awards at the cost of commodities provided by the School Lunch Program. The total federal share of these commodities was \$103,202 for the fiscal year ended June 30, 2019. The amounts have been included in the schedule of expenditures of federal awards under CFDA 10.565.
