Re: Water Availability – Lots 2 and 3, Center of New England
Center of New England Boulevard
Coventry, Rhode Island

Dear Mr. Oliver:

This letter is to confirm that water service is available to the proposed condominium development located on Lots 2 and 3 within the Center of New England development, off Center of New England Boulevard in Coventry, Rhode Island.

Kent County Water Authority has completed a computerized hydraulic evaluation of the existing and proposed water system serving the area. Based on the results of this evaluation, adequate water service is available to accommodate the proposed development.

A complete design application, as outlined in Part III of the KCWA Rules and Regulations, is required. This application must include detailed water demand requirements and site plans for the proposed development.

A copy of the KCWA Rules and Regulations is available online at www.kentcountywater.org.

Please feel free to call should you have any questions regarding this matter.

Very truly yours,
Kent County Water Authority

Gary Glenn
